

Response and feedbacks from the supervisor

Discussed basic project details and the need for a homepage; guided through HTML/CSS structuring. Helped identify and add functional requirements to the System Requirements Traceability Matrix that align well with the system. Provided feedback on the revised ERD. Reviewed the revised ERD and gave final suggestions. Reviewed homepage and admin dashboard in accordance with project requirements. Helped with theme poster design and approved on the same day. Provided further guidance on report writing and other related project tasks.
